Portfolio

Personal Profile

As a recent Civil Engineering graduate, I bring a proven record in project management and precise problem-solving. My academic journey instilled essential skills such as attention to detail, analytical thinking, and systematic approaches to challenges. Through my final year research project, I enhanced my ability to deliver high-quality results within specified timelines, as well as the proactiveness to go out and learn things that were foreign to me, equipping me with transferable skills poised for application in software development.

Currently transitioning into software development with a strong passion for IT, I am enrolled in a focused 12-week training course to enhance my coding proficiency and stay ahead of industry trends. This strategic investment aligns with my commitment to seamlessly pivot from civil engineering, aiming to contribute meaningfully to the dynamic field of software development.

Looking forward, I'm excited to gain further skills and experience in software development, evolving as a proficient IT professional. Eager to thrive in challenging environments, I aim to contribute meaningfully to dynamic projects, progress within the IT field, and continually advance my career.

Education and IT Training

10/23-01/24	**Just IT Training Ltd, London**
	Digital Skills Bootcamp: Software Development
	A twelve-week intensive bootcamp covering the fundamentals of Web and Software development.
09/19-08/22	**London South Bank University,**
	BEng Civil Engineering 2.1
Final Year Project:	*"Artificial Intelligence in Structural Design" Researched AI and then used python to create my own AI that automates structural beam design calculations.*
09/15-07/17	**Newham Collegiate Sixth form,**
A Level:	Maths (A) Chemistry (B) Physics (C)
09/2010-07/2015	**Stratford School Academy,**
GCSE:	11 A*-B grades in subjects including Maths and English

IT Skills

Software Development Skills: Python, SQL, Node, GitHub, APIs

Web Technology: HTML, CSS, JavaScript, React

Core Programming Languages: JavaScript

Projects:
Anime list app: Allows users to search for an anime which returns a set of anime cards. These contain the title, synopsis and poster. It was made using React.js and CSS
NBA Stats app: Allows users to search for any NBA player and returns their key stats of the 22/23 NBA season. It was made using HTML CSS and JavaScript.

Employment History

05/21-Present   Amazon, London
Delivery Driver

- Optimized delivery routes for timely deliveries, minimizing travel time and maximizing productivity.
- Proactively communicated with customers, addressing inquiries and providing timely updates on delivery status.
- Resolved a missing package report by investigating, tracking the parcel, and ensuring customer satisfaction.
- Provided clear and concise instructions to team members and accurately conveyed delivery information to customers.
- Adjusted delivery routes promptly in response to unexpected changes such as traffic delays or adverse weather conditions.
- Successfully resolved delivery challenges, including inaccessible addresses or missing information, by reaching out to customers and collaborating with support teams.

08/17-01/22   Chelsea Football Club, London
Safety Steward

- Effectively managed crowds during Chelsea events, ensuring a safe and orderly environment.
- Demonstrated strong communication skills by providing clear instructions to attendees and collaborating with fellow stewards.
- Participated in emergency response drills and efficiently handled crisis situations during events, ensuring the safety of spectators.
- Resolved conflicts among spectators with tact and diplomacy, maintaining a positive and secure atmosphere.
- Delivered exceptional customer service by addressing inquiries, providing assistance, and promoting a welcoming atmosphere.
- Employed keen observational skills to identify potential safety hazards and proactively address them before they escalated.
- Collaborated closely with other safety stewards and event staff to ensure a coordinated and effective approach to safety measures.
- Adapted quickly to changing situations, including adjusting to varying crowd sizes and responding to unforeseen circumstances during events.
- Proactively identified and addressed potential safety issues, contributing to a proactive and preventative safety culture.

Interests and Achievements

Computing:
- I use YouTube videos and online courses such as scrimba and udemy to help me build new projects and try to stay up to date.
- I support my mum with her teaching by doing all the computer work for her, which includes making online quizzes.

Hobbies:
- I enjoy sports such as football and basketball. This includes both watching and actively playing.
- I enjoy gaming and see as a good way to unwind and relax.
